

I find it disgraceful that media consolidation in this country has come to a point that Sinclair Broadcasting can force their stations to air an anti-Kerry documentary instead of regular programming. The news stations are supposed to be impartial reporters of the news. It doesn't matter which candidate is being attacked, any broadcasting company should be prohibited in exploiting its media power for partisan purposes. Free media ensures a free society. We now see how consolidation of the media, leads to this type of manipulation. We need to strengthen media ownership rules, not weaken them. This episode with Sinclair's broadcasting clearly attests to this matter.
